DRASHTI TANNA

Architect | M.Sc. Landscape Architecture Candidate

"We do not simply build beside nature; we live, design, and evolve within it."

This belief shapes my approach to design as an evolving relationship between people, landscape, architecture, and natural systems. As an architect and landscape architecture candidate, I am interested in creating **environmentally responsive spaces** that are rooted in place, sensitive to context, and meaningful to human experience. Through curiosity and a collaborative approach, I aim to create environments where architecture and landscape exist as part of a connected whole.

COMPETENCE

DIGITAL
Drafting & Mapping
AutoCAD | QGIS

3D Modelling & Visualization
SketchUp | Rhino | Enscape

Graphics & Representation
Photoshop | Illustrator | InDesign | CorelDRAW | Canva

Microsoft Word | PowerPoint | Excel

MANUAL
Sketching | Hand Rendering | Model Making | Technical Drafting | Abstract Drawing | Photography | Mood Boards | Site Survey & Documentation | Material Selection

PROFESSIONAL
Teamwork | Leadership | Communication | Time Management | Design Coordination | Collaborative Working

LANGUAGES

Gujarati: **Native**
Hindi : **C2**
English : **C2**
Italian : **A1 (Currently learning)**

INTERESTS

Landscape · Travel & Exploration · Walking · Photography · Music · Cooking · Sketching
